## Amendments to the Claims

This listing of claims will replace all prior listings of claims in the application.

## Listing of Claims

- 1. (Original) A resin composition, comprising the following components as essential components:
  - (A) a polyol;
  - (B) a polyisocyanate; and
- (C) a silane coupling agent containing an imidazole group,

(wherein the ratio NCO/OH of a number of isocyanate groups in the polyisocyanate (B) to a number of hydroxyl groups in the polyol (A) in said composition is from 0.6 to 4.0, and a weight ratio of  $\{(A) + (B)\}$ : (C) is from 100:0.01 to 100:10).

- 2. (Original) The resin composition according to Claim 1, wherein the polyol (A) is a polyester polyol, an acrylic polyol, a polyether polyol, or a fluoroethylene-containing polyol.
- 3. (Previously Presented) The resin composition according to Claim 1, wherein the polyisocyanate (B) is toluene diisocyanate (TDI), diphenylmethane-4,4'-diisocyanate (MDI), diphenylmethane-2,4'-diisocyanate, hexamethylene diisocyanate (HDI), bis(4-isocyanatocyclohexyl)methane (H12MDI), isophorone diisocyanate (IPDI), or a derivative obtained by oligomerization of these.
- 4. (Previously Presented) The resin composition according to Claim 1, wherein the silane coupling agent containing an imidazole group (C) is one that has a hydroxyl group in its molecule, or a derivative thereof.

- 5. (Previously Presented) A urethane-based paint whose active component is the resin composition according to Claim 1.
- 6. (Previously Presented) A fluorine-based paint whose active component is the resin composition according to Claim 1.
- 7. (Previously Presented) A urethane-based adhesive whose active component is the resin composition according to Claim 1.
- 8. (Previously Presented) A urethane foam whose active component is the resin composition according to Claim 1.
- 9. (Previously Presented) An elastomer whose active component is the resin composition according to Claim 1.
- 10. (New) The resin composition according to Claim 1, wherein the silane coupling agent containing an imidazole group (C) is a compound obtained by a reaction of an imidazole compound and 3-glycidoxypropyltrimethoxysilane.
